2018-19 EPL Team Notes

The Champions League and Europa League badges indicate that the team participated in the 2018-19 Champions or Europa League and are included as a little eye-candy and as a reminder of the teams playing a heavy European schedule. Tottenham has Tottenham Hotspur Stadium listed but they did play most of their home matches at Wembley Stadium.

2018-19 La Liga - Quick Fixture Football

Bonus Team Notes

Ajax, Barcelona, Eintracht Frankfurt, and Valencia are included to allow the ability to replay the Champions and Europa League semifinals which were extremely exciting in most cases to watch. These 4 teams are based solely on their domestic league performance - no adjustments for European performance was made. Included for fun only!

UEFA EUROPA LEAGUE

Explanation of player ratings:

The top 14 players (by combination of stats - goals and cards - and minutes played) along with two goalkeepers are 'carded' on the team player stat cards. The remainder of the players are listed as "Others" and the remaining goals and yellow cards not assigned to the top 16 players are totalled here. On a separate sheet there is a listing to assign the 'OTHERS' goals to players outside the top 16, you just roll an additional d100 and refer to that sheet.

There are no additional players given for the 'OTHERS' yellow cards, the majority of teams had 90% or more of their yellow cards assigned in the top 16 players. The individual user is left to develop those ratings if desired.

Individual goalkeepers do not have any modifications to ratings (the defense and keeper are rated on a team basis) but underneath the additional goalscorers there is a chart to determine the starting goalkeeper if desired.

Finally you will also notice that several players have red font for the yellow card ratings. These players have received at least one red card in the previous season. In the case that a player received more than one red card in a season this is noted by red and BOLD font.

The red card ratings do NOT make any change to game play, they are for reference only.

If you wish to use the ratings I would suggest that if the game calls for a straight red card and the team has at least one player that received a red card during the season that the red card be assigned to one of those players through a random selection. Otherwise just use the ratings to determine cards as normal.

These individual rating cards have been formatted to print 9 cards per sheet and should be approximately the same size as the 2018-19 EPL Team Cards. The intent was that both team and individual cards can be printed and then stored back-to-back in trading card sleeves (typically \$2 or less for 100) for easy reference during game play and protection.

As noted above the additional team (Ajax, Barcelona, Eintrach Frankfurt, and Valencia) are provided for fun, the teams are based on their domestic league performance only. The ratings have not been adjusted for performance in Champions or Europa League. Additionally some of the leagues still have 1-2 games left to play. The cards are included for fun if you wish to replay Champions/Europa league semifinals.

Many thanks to Gary Brown for providing Quick Fixture Football and making the team rating system freely and easily available. If you have any issues or comments regarding the ratings feel free to send an e-mail to rameister89@yahoo.com
